

CDC Gaming Seminars and SEE, Inc. present:

Emerging Leadership Certification Program Online Training for New Managers and Supervisors

There's nothing harder than moving from
an hourly job to a supervisory position.

An entirely new and challenging skill set is required and most new leaders
have never been taught these skills.

This program is designed to help new leaders succeed.

(It's also great for people you are grooming for
supervisor or manager positions or for longer-term leaders
who have not had any training in the science and art of leadership.)

Training your leaders is an investment that pays off in **more engaged employees, loyal customers and bottom line results.** Poor leadership is a quiet poison that creates resentful employees, turns customers off and generates a flow of expensive and time-consuming problems.

Program Details

The Emerging Leadership Certification Program is done **100% on-line** and includes **four sessions** with a total length of eleven hours. **The sessions can be completed at any time, 24/7/365.** The certificate can be earned in as little as three weeks. The four sessions are:

1. Introduction to Leadership
2. Interpersonal Communication
3. Morale and Engagement
4. Coaching – Providing Feedback

The sessions include video, reading, audio, activities, reporting, discussion forums and assessments. You are guided through the process at your own pace with the support of the SEE team.

Research-Based Training

“This research is groundbreaking and a leadership development game changer.” Harvard Business Review-April, 2008.

The Emerging Leadership Certification Program is **based on pioneering research** conducted by Tim Schneider and his team. The research included over 11,000 leaders and provides statistically accurate guidance in the skills and approaches needed for leaders to be successful. Combining that research with 25 years of results-oriented training experience and you have a program that will produce exceptional results for your leaders and your organization.
