

Slot Performance Analysis Workshop

Via Webinar

***Presented by Will Dunn, President of
Dunn Gaming Solutions (DGS) & Creator of
the Slotfocus Performance Analytics Solution***

**September 19-23, 2022
1 pm to 3:15 pm Eastern Time Each Day**

In today's challenging economic environment it is essential to make the right decisions in order to maximize the financial results of your slot floor. The Slot Performance Analysis Workshop is designed specifically for gaming industry professionals. Our A to Z approach to the material benefits both seasoned professionals looking to broaden their skill sets and those who relatively new to slots.

The online format is a great combination of lectures, exercises, casework, and Q & A. There are also review questions and exercises for attendees to complete after each session. People learn by doing, and this material will help participants get comfortable with the processes being taught and be able to apply them on the job more quickly.

To provide a richer, more personalized learning environment, we are limiting the number of attendees to 12. Attendees should have a working knowledge of MS Excel, including inputting/sorting/filtering data and entering formulas and functions. Some familiarity with pivot tables is also helpful. Attendees are encouraged to use their web cameras, but camera use is not mandatory.
